The Food!

Remember the days when all you could find to eat at a festival was some cotton candy or a box of popcorn? Well you must not have been attending the Festival in the Park. Festival has always provided a wide variety of delicious foods to select from.

The menu at this year's Festival in the Park has so many choices that you might have a hard time choosing a favorite. You will find traditional fare like the **funnel cakes** and ribbon fries from vendors like Tastee Chef. As you stroll the park with your funnel cake, you'll find yourself ready to enjoy something you've never tried before.

How about **sweet potato fries** or a **smoked turkey leg** from James & Mary's Creative Country Catering?

An **Angus Burger** from Just Jlicious Cooking & Concessions?

Pizza is always better when it comes from the wood-fired ovens of Primo **Wood Oven Pizza** from Roanoke.

The Tiki Grill from Raleigh, NC, will have a variety of **Polynesian delights** that will inspire you to start planning that trip to Hawaii.

Also take the time to indulge your sweet tooth at Festival in the Park. Enjoy homemade ice cream or hand-squeezed lemonade from Country Folks **Homemade Ice Cream**. Cool off with a **fruit smoothie** or **shaved ice** from Frosty's.

And if you're still looking for that bag of popcorn, Blue Ridge **Kettle Corn** of Charlottesville has something even better. Kettle Corn made with healthy soybean oil. If you haven't joined the Kettle Corn Craze, your time has come!

Come Hungry! And Leave Happy!

Barbeque

It wouldn't be Festival in the Park without **Barbeque!** Big-Boned BBQ of Hixson, Tennessee, will be able to fulfill all your Barbecue desires with a full menu of their award winning creations. Owners Pat & John Nelson have won awards for their sauce and **Beef Brisket**. Judges and visitors at several competitions around the country couldn't say enough about their **Ribs**. Pace yourself because you'll want the chance to enjoy everything they offer from the **Beef Brisket** to the **Pulled Pork** to the Slab of **Ribs**. Big-Boned BBQ also has the fixin's that good barbecue needs – **coleslaw**, **corn bread**, and **beans**. With a slogan like "We're not fat, we're just Big Boned" how can you go wrong?
